

WPS2-Dongle

Simple to set-up, Optoma's WPS2-Dongle lets you connect and display presentation materials wirelessly from a PC or even from a Smartphone*.

The pocket-sized WPS2-Dongle brings you all the benefits of seamless wireless connectivity to a highly portable package. Enjoy big-screen presentations displayed from computer to projector cable-free.

With a free Smartphone App called MobiShow you can also share your photos or PowerPoint slides direct from your phone, no need to carry a heavy laptop into meetings.

An intuitive user interface allows information to be located and shared effortlessly. Embedded in its compact dimensions is the power to download operating software instantly for easy, convenient installation. Featuring advanced WEP 64/128-bit wireless security protection, the WPS2-Dongle prevents unauthorised access to your information or the wireless network.

Pocket size and light weight

WPS2 is the smallest wireless presentation system that plugs directly into projector's VGA port

Project videos, presentations and images from your laptop or Smartphone via WiFi

WiFi AP-Client mode

Allow WPS2 to join the existing WiFi Access Point wirelessly for internet surfing

PoVGA

Connect WPS2 to a projector supporting PoVGA to supply the power directly from the VGA port
