

Interactive Kiosk

The Sinocan KT06-19 is the floor-mounted and super slim kiosk system that doesn't rely on a separate computer case.

In this system, the computer is integrate into the ultra-slim contours of the kiosk without any unwieldy bulges or external boxes.

Areas of Application:

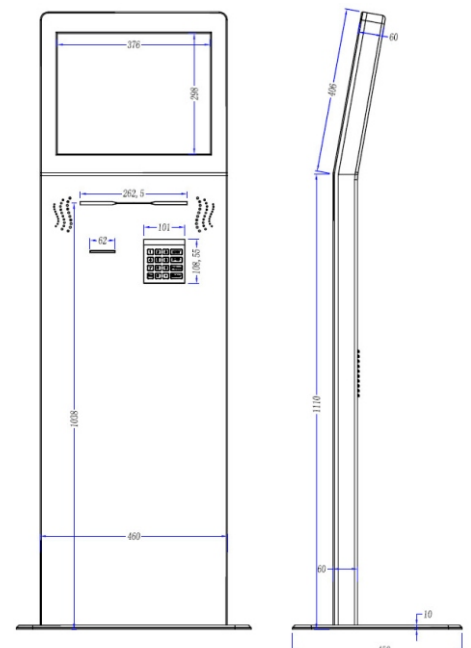

- Touch screen kiosks
- Internet terminal
- Visitor welcome system
- Commercial signage
- Office signage
- Virtual receptionist
- Employee intranet access

Special Equipment:

- HiFi speakers
- Thermal printer
- Wireless LAN
- Touchscreen
- Vandal-Proof
- Water-Proof
- Dust-Proof Available

Product Advantages:

- Inexpensive quality kiosk system
- 2-layer chassis
- High brightness 19 inch display
- All-in-One PC technologies
- 6cm super silm thickness

Specifications

Model	KT06-19
Chipset	Intel 945G
	LGA775
	FSB 533/800Mhz
	Supports Intel® Core 2 Duo /Dual-core /Pentium D /Pentium 4 /Celeron D
CPU	Intel Pentium D 3.0GHz(standard)
Memory	1GB standard, maximum 4 GB DDRII
HDD	Standard SATA 80GB, built-in standard 3.5" type, maximum 300GB
Touch LCD Display	
Size/Resolution	19" TFT LCD / 1280×1024@75Hz
Brightness	250cd/m2
Touch Screen	Vandal-proof, water and dust proof Surface Acoustic Wave touchscreen(SAW)
Kiosk	
Material	Cold rolled steel ST12 SPCC, 3mm thickness or Stainless steel, 2mm thickness
Color	Piano black color or stainless steel wire drawing
Dimension	(H)168.9cm×(W)45.6cm×(Thickness)6cm, ultra-slim kiosk
Bottom Dimension	(H)50.6cm×(W)25cm×(Thickness)0.8cm
Power	110V-220V Power supply
Temperature	-5 ~ +50 Degree
Humidity	40% ~ 80%
I/O Connectivity	1xSerial, 1xUSB, 1xRJ45
